

Teak Wonder®

TEAK WONDER®

Dressing & Sealer

New teak is subject to rapid aging if not cleaned daily with fresh water or a suitable protective product applied. Most protective treatments for teak on the market are oil-based stains that have several drawbacks; they falsely darken the teak, absorb dust and dirt; in warm conditions the oil is brought to the surface and can make the deck slippery and greasy and it can also stain clothes.

TEAK WONDER® DRESSING & SEALER is a safe and durable, non-oil based product which provides a pleasant golden color without darkening the teak or producing that fake colored look. The special components in **TEAK WONDER® DRESSING & SEALER** seal the wood, blocking the penetration of dust and dirt whilst protecting the natural teak oils against ultraviolet rays, slowing the oxidation and discoloration process. The sealing treatment helps inhibit the penetration into the wood of liquids such as fuel, oil, fish blood, paints, etc. As long as these liquids are not allowed to dry, they will be much easier to remove.

TEAK WONDER® DRESSING & SEALER does not make the teak glossy or slippery, does not falsely darken the teak and does not build up an accumulation on the surface. The product is quick drying and does not smell. It is recommended that two coats are applied (with heavy brush strokes) on new teak. If teak is old or dirty, then the wood should be previously treated with **TEAK WONDER® CLEANER** and **TEAK WONDER® BRIGHTENER**, allowing the wood to dry completely before the sealing process. Another coat of sealer can be applied after 8-12 weeks without repeating the cleaning process. The product must be mixed thoroughly before use. Immediately wipe away any drips or marks on non-teak surfaces. The coverage is approximately 55-65 ft² / lt.

#60100: 1/2 lt. can (Case Quantity: 12)

#60101: 1 lt. can (Case Quantity: 8)

#60105: 4 lt. can (Case Quantity: 4)

WARNING

This product can expose you to certain chemicals, which are known to the State of California to cause cancer or birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

TEAK WONDER®

Combo Pack

Combo Pack contains 1 bottle of TEAK WONDER® CLEANER and 1 bottle of TEAK WONDER® BRIGHTENER

TEAK WONDER® Combo Pack is a complete kit for cleaning small areas. The kit contains one bottle of cleaner and one bottle of brightener to perform the complete cleaning cycle. The one liter bottles are equipped with a handy cap/pourer that allows easy use of the products, avoiding waste.

For the application process, see the instructions for **TEAK WONDER® CLEANER** and **TEAK WONDER® BRIGHTENER**.

The coverage is approximately 85-100 ft² / lt. (depending on the condition of the wood)

#60110: Combo Pack of 1 lt. bottles (Case Quantity: 8 Combo Packs)

#60115: Combo Pack of 4 lt. bottles (Case Quantity: 2 Combo Packs)

Cleaner

TEAK WONDER®

Teak cleaning is normally a problem that is often solved by drastic methods such as sanding or the use of powder or extremely caustic detergents which will eventually severely damage the surface.

TEAK WONDER® CLEANER is a powerful cleanser that thoroughly cleans the teak easily and with very little effort, without the need for sanding. The product is neither caustic nor aggressive and will not damage rubber seals, paint or hardware. The grey oxidation and dirt are removed in a

few minutes.

The cleaning process is carried out by wetting the surface to be cleaned thoroughly with fresh water, then apply the cleanser evenly and brush the deck with a soft bristle brush, across the grain (do not apply too much pressure, this avoids damaging the teak fibers). Rinse the soapy solution off with plenty of fresh water and do not allow the wood to dry prior to starting the brightening process.

On heavily soiled surfaces, which have significant oxidation or have not been cleaned for a long time, a second cleaning may be necessary before starting the brightening process. Carefully wash away any product left on non teak surfaces.

The coverage is approximately 65-85 ft² / lt. (depending on the condition of the wood)

#60120: 4 lt. bottle (Case Quantity: 4)

Brightener

TEAK WONDER®

TEAK WONDER® BRIGHTENER is a lightening process used to eliminate shading from the teak which may still persist even after the application of the **TEAK WONDER® CLEANER**. The application of **TEAK WONDER® BRIGHTENER** is not always necessary, but when used on aged surfaces it has an effect that seems miraculous; the teak immediately regains its natural color (like newly sanded but without removing precious layers of grain).

The brightening process should be carried out on a wet surface, ideally straight after cleaning. Apply the brightener sparingly and evenly to avoid a patchy result then wash the deck.

The effect of the **TEAK WONDER® BRIGHTENER** is immediate and the result instant. As with the cleaner, rinse away the solution with plenty of fresh water. The product is neither caustic nor aggressive and will not damage rubber seals, paint or hardware. Carefully wash away any product left on non-teak surfaces.

The coverage is approximately 85-100 ft² / lt. (depending on the condition of the wood)

Once dry, the surface is ready for application of protective **TEAK WONDER® DRESSING AND SEALER**.

#60125: 4 lt. bottle (Case Quantity: 4)

TEAK WONDER®

Instant Teak Cleaner

To remove grease stains from small areas without need of rinsing thoroughly. It can be used on any type of material; raw or treated teak, plastic, fiberglass, textiles, etc.

- ◆ Push the nozzle repeatedly to get enough foam to cover the area to be cleaned.
- ◆ Lightly rub the instant teak cleaner with a soft brush to allow the foam to work.
- ◆ Leave for at least 2-3 minutes, then remove with a damp sponge. Repeat the cycle if necessary.

If the surface to be treated is not teak, color test a small inconspicuous area first before treatment. Any color change on the teak can be removed by a subsequent treatment with **TEAK WONDER® CLEANER** and **TEAK WONDER® BRIGHTENER**. Do not apply on hot surfaces or in direct sunlight. Do not leave foam to dry without removing residue with a damp sponge.

#60140: 250 ml. bottle
