# A2.5 Flush Mount 2.5" 4 COLOR LED Down Light

Scandvik's A2.5 LED Down Light with class leading output, sealed weatherproof construction and simple 2-wire installation is a favorite amongst boat builders.  Intelligent circuitry allows color changing from White, Blue, Red, Green without specialized switches or controllers.  Only a simple 2-position(on/off) toggle switch is needed. Switch light off and on again within 1.5 seconds to cycle through each of the four colors.  Turning the light off for more than 1.5 seconds resets the light to White.  This **316 Stainless Steel** fixture is suitable for overhead exterior locations such as T-tops, hard tops and mezzanines.  Simple butterfly clips hold the A2.5 firmly in place.

**#41416P A2.5 4-COLOR Down Light**
- 286 Lumen (Daylight White 5500-6300K)
- 10-30 VDC
- IP67

# A3 Flush Mount 3" LED Down Light

Scandvik's A3 LED Down Light is offered as single or bi-color lighting and can be dimmed when paired with the Tortuga PWM dimmer.  A3 features a snap over bezel in Polished **316 Stainless Steel**, White or Black polycarbonate.  A3 mounts securely overhead using just two flathead screws (included).  Single color light are 2-wire (on/off) and bi-color are 3-wire (on/off/on).  It is a good choice for general lighting on smaller boats or as under cabinet lighting for any size vessel.  Other applications include hard tops, arches, walkway overhangs and shower stalls.

## B3 Surface Mount LED Down Light

Scandvik's B3 LED **slim (3/8" profile)** surface mount single color down light is manufactured to be simple and budget friendly. The SS polished snap over trim ring is a nice upgrade from the inferior chrome plastic bezels of the past. The fixture is popular as a T-Top light as it looks like a flush mount light without the hassle of cutting holes.

## LED 6" & 12" RGBW+ COLOR CHANGE RAIL LIGHT

NEW

Scandvik's New 6" and 12" RGBW+ Color Change LED Rail Light with class leading output, sealed weatherproof construction is a favorite amongst Boatbuilders. Intelligent circuitry allows color changing without specialized switches or controllers. Simple 2-wire connections with any on/off switch is all that is required to cycle from White to Blue to Red to Green. Switch off for more than 4 seconds resets the color to white. Light also has a dynamic color-change fade setting in the last sequence that allows the light to cylce through a range of colors on its own.

For surface mount or T-top and Bimini top applications. Includes rail mounting brakets for 3/4" to 1-1/2" diameters

- IP65
- 10-30VDC

### #41593P E-1680 LED Engine Room / Utility Light

This super-bright, vibration resistant LED light meets the expectations of next generation vessels, refits or upgrades. The fixture can be powered by your DC battery system, AC generator/shore power or both.  If connected to both, the PC board automatically switches to DC power, when AC power is lost.  Meets the Requirements and Standards for SAE J1171. USCG. ABYC & NMMA. Includes trim ring for surface mount installation

## Surface Mount LED Courtesy/Locker Light

**Scandvik's LED Surface Mount Locker Light** is offered in a touch switch or motion sensing design.  The Touch version has a blue led backlit touch switch for easy nighttime location.  The motion sensor switch version is triggered by temperature and movement (both of which are necessary to trigger the light within 6').  Lights feature a **316 Stainless Steel** Bezel and are designed for wet locations.  Ideal for Hatch, Locker and Closet illumination.  Mounting Hardware included.

Dimensions with Stainless Steel Trim: 4 5/16"L x 1-1/16"W x 1/2"H (11/16" for Motion Sensor)

- 210 Lumen (Warm White 2900-3200K)
- 10-30VDC
- IP67

**#41741P** Warm White - Locker Light with Touch Switch, **316 Stainless Steel** Trim.

# Scan-Strip 4 - Color RGBW LED

**16" RGBW SCAN-STRIP (30 LED)**

**8" RGBW SCAN-STRIP (15 LED)**

**INPUT VOLTAGE**
12/24
DC
10-30

**NEW**

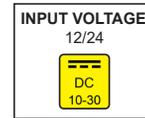

- RGBW LEDs
- Colors Daylight White (4000-4500K), Blue, Red, Green
- Lifespan 30,000 + Hours
- 120° Beam Angle
- 12/24 V  (10-30VDC)
- Watts 8" = 1.2
- Watts 16" = 2.4
- Watts 20" = 3.1
- Lumens 8" White = 94
- Lumens 16" White = 180
- Lumens 20" White = 234
- IP65
- Ideal for under gunwale lighting
- SS Mounting Screws Included
- 8" (8-7/8" L x 7/8" W x 1/2" H)
- 16" (16" L x 7/8" W x 1/2" H)
- 20" (20" L x 7/8" W x 1/2" H)
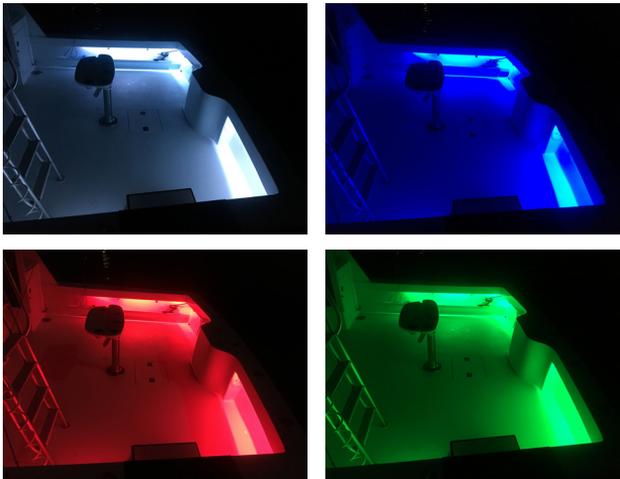

Scan-Strip 4-Color RGBW LED builds on the popularity of our original single color Scan-Strip LED. Simple 2-wire connections with any on/off switch is all that is required to cycle from White to Blue to Red to Green.  Switch off for more than 4 seconds resets the color to white.

# LED FLEX-STRIPS

## 12mm Wide Single

Thicker durable strip with no adhesive backing. 30 or 60 LED's per meter.  5-meter (16') reels wired at both ends, can be cut to custom lengths.  24 silicone mounting clips and 2 end caps included.  *Dimmable with optional controller.

| Part Number | Color | LED's per meter | Length | Width | Voltage | Dimmable | Protection |
|---|---|---|---|---|---|---|---|
| 41510 | Warm White | 60 | 16' (5-meter) | 12mm | 12 V | Yes* | IP68 |
| 41511 | Cool White | 60 | 16' (5-meter) | 12mm | 12 V | Yes* | IP68 |
| 41520 | Red | 30 | 16' (5-meter) | 12mm | 12 V | Yes* | IP68 |
| 41521 | Blue | 30 | 16' (5-meter) | 12mm | 12 V | Yes* | IP68 |
| 41522 | Green | 30 | 16' (5-meter) | 12mm | 12 V | Yes* | IP68 |
| 41523 | Blue | 60 | 16' (5-meter) | 12mm | 12 V | Yes* | IP68 |

## 14mm Wide Dual Color

### TWO COLORS IN ONE STRIP!

Strips can be cut on the cut-marks and sealed with  silicone end caps and installed with silicone clips  included. Strips can be wired together to make longer runs.

• Wired on both ends
• IP68
• SMD5050 LEDs
• 60 LED/meter
• Blue/Red or Cool White or both together
• 14mm wide
• Requires a double throw (on/off/on) switch

**Wall Mount 12V Dimmer with IR Remote**

- 12/24 VDC
- External Dimensions: L 34 1/2" x W 34 1/2" x H 1 5/8"
- Max Current: 16 Amp
- Working Temperature: -20-60 C°

**#41607** Wall Mount 12V Dimmer with IR Remote

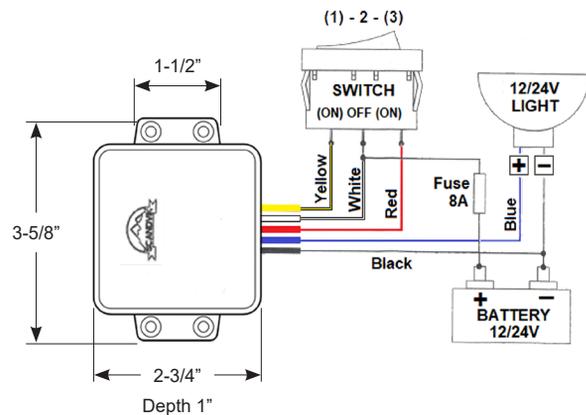

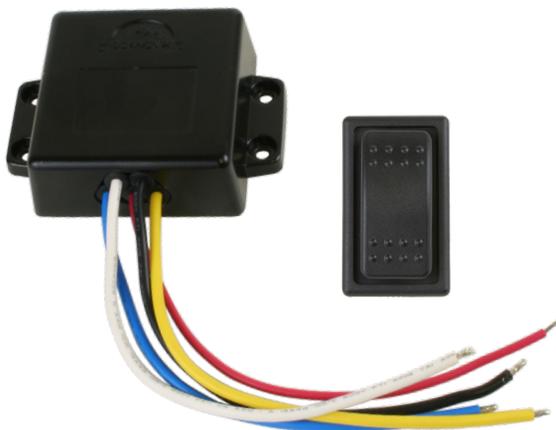

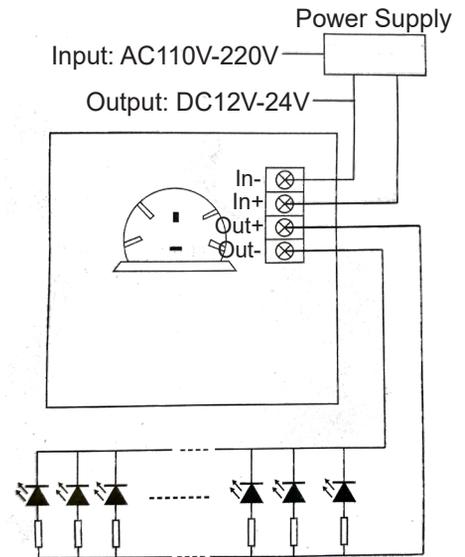

The **Tortuga Dimmer** is designed to easily adjust the interior or exterior light level from 0-100% output. Touch the "up" button to turn light on and touch the "down" button to turn light off.

Press and hold either up or down, on the included switch, to increase or decrease the light output level to your likeness.  Release at any point to maintain the current brightness.

If you are leaving the boat, the Tortuga features an exit mode. Push the "down" button two times within 1.5 seconds, the light will flash twice, and turn off after 1 minute.

- IP66
- 10-30VDC
- Rated for 8A, 12V or 24V
- Includes Switch
- Die Cast Aluminum Housing
- Pulse Width Modulated to will work with LED, Incandescent or Halogen Lights
